IIID Award on Information Design

The aim of IIID has always been to promote and expand information design knowledge and research. In 2011, the International Institute for Information Design celebrated its 25th anniversary. The time was ripe to acknowledge the best in what information design has to offer by introducing the IIID Awards. The competition is held every three years with 2020 as the fourth edition to look forward to.

The International Institute for Information Design

IIID was founded in 1986 to stimulate the development, recognition and good practice of information design in its broadest sense.

Over the last 30 years, IIID has become one of the best-known names for developing the information design discipline worldwide. We have members and friends around the globe who are passionate about creating better information in many different areas of application.

CATEGORIES

The IIIDaward will recognize outstanding work done in the field. The breadth of information design has led us to develop 15 categories of awards, focused on specific topic areas. They include:

Healthcare

Information design that makes physical, social and mental well-being possible.

Financial

Submissions should focus on issues such as economics, personal financial management, banking and investments.

Wayshowing

Navigation in unfamiliar environments.

Traffic and Public Transport

Ensuring people reach their destination by foot, underground, bike, car, bus, aeroplane, boat...

Social Affairs

Projects that have a positive, tangible, impact on a specific population.

Emergency / Safety

Identifying and communicating hazards, information about avoiding dangerous situations and awareness of consequences.

Corporate Design and Communications

Helping companies/businesses to fully express themselves and communicate what they have to offer.

Didactics

Projects that focus on educational or instructional information design.

Products and Services

Projects that help make products and services accessible, understandable and beneficial for the users.

Editorial

Submission related to media, journalism and writing.

Universal Design

Information design that create an inclusive environment.

Future Concepts

New and innovative projects. Something that makes us wish we had thought of it first!

Research

Methods and tools for information design.

Sustainability

Focused on the relevance of ecological issues and impact on natural resources as well as „green“ design practices for information design.

Student Work

Open to those who are studying to be information designers with no restriction on the theme of the submission.

FAQ

Can I submit to more than one category?

Yes, you can submit to as many categories as you like. However, each submission must be entered individually, and you must pay the entry fee for each.

Which category should I choose?

Whichever category you feel best reflects your submission. You can enter the same project in more than one category (see above). If you are unsure, please contact us.

Why a template?

We expect that as an information designer you are able to fit the most important points on two pages. Please use the template, this enables direct production of the IIIDaward book layout. Please answer within the template the following questions:

- What was the challenge?
- What was the solution?
- What was the effect?

For your entry, please feel free to use the two pages according to your needs, as long you stay within the grid.

How much does it cost to submit?

120,- Euro per submitted project, 30,- Euro for entries in the student work category. Awards costs of 190,- apply only to the winners and shortlisted projects in all categories except the student works.

IIIDaward-Book and Tour

Shortlisted and winning submissions will be part of the IIIDaward-book and of the IIIDaward exhibition tour.

SPECIAL 2020

ACTION ON CLIMATE CHANGE!

Together with the Bertalanffy Center (BCSSS) a special award is given for actions on climate change supported by excellent, convincing and credible information design works among all submissions independently of the selected category.
